

ADVANCED OXYGEN ADVANTAGE[®] INSTRUCTOR TRAINING PROGRAMME

• **3-DAY LIVE IN-PERSON WORKSHOP
IN BRONTE WITH MASTER COACH
DEAN GLADSTONE**

• **1-HOUR LIVE ONLINE TRAINING WITH
PATRICK MCKEOWN VIA ZOOM**

• **LIFETIME ACCESS TO ONLINE
TRAINING PORTAL**

THE ADVANCED OXYGEN ADVANTAGE[®] INSTRUCTOR TRAINING PROGRAMME IS DESIGNED BY PATRICK MCKEOWN. THIS UNIQUE PROGRAMME IS AIMED AT DELIVERING A PROTOCOL OF BREATH WORK TO OPTIMISE BREATHING, IMPROVE OXYGEN UPTAKE, AND PROVIDE AN AEROBIC AND ANAEROBIC WORKOUT AS WELL AS DEVELOPING MENTAL FOCUS AND ACUITY.

BY JOINING THE ADVANCED OXYGEN ADVANTAGE[®] INSTRUCTOR TRAINING PROGRAMME YOU WILL:

- Get **3 days live in-person training** in Bronte with Australian master coach Dean Gladstone. During this workshop, you will learn the science behind the technique alongside plenty of practical experience on how to effectively deliver the programme to your clients
- 1 hour live tuition during the **training with Patrick McKeown** via Zoom
- Access to online training portal with recordings of live online classes delivered by Patrick McKeown
- Be certified to teach a method that has helped top athletes including Olympians, professional soccer players, MMA, elite runners, and weightlifters to recreational athletes all over the world.

DURING THIS TRAINING YOU WILL LEARN HOW TO:

- Understand the importance of breathing for our health and performance
- Improve functional movement through breath work
- Use the breath to experience new levels of health and performance in your own life
- Transform clients health and performance under your guidance
- Employ the best tools, tactics, and strategies to monitor a client's progress and ensure the best results
- Confidently teach the Oxygen Advantage[®] technique

JUST SOME OF THE BENEFITS YOU CAN DELIVER TO YOUR CLIENTS:

- Address breathing pattern disorders in everyday life
- Reduce breathlessness during exercise
- Improve fitness (aerobic and anaerobic)
- Improve sports performance
- Reduced injury risk
- Quicker recovery after training
- Better sleep, rest and relaxation
- Improve posture
- Reduce exercise induced asthma
- Stronger breathing muscles
- Boosted mental performance, focus and concentration
