Course Description

Master the Science of Breath with Oxygen Advantage®

Developed by renowned breathing expert Patrick McKeown, this 100+ hour certification teaches you to apply safe, science-based breathing techniques to transform health and performance.

Become a certified Oxygen Advantage® Instructor, joining a global community committed to harnessing the power of breathwork.

You'll gain in-depth knowledge of respiratory physiology, learning how to restore functional breathing and simulate altitude training for improved endurance.

With breathwork demand growing exponentially, you'll be equipped to help a broad range of clients - from executives to pro athletes - to release their full potential.

What will i learn in this course?

You will learn to identify breathing dysfunctions, understand their impact on health and performance, and teach scientifically-backed exercises and protocols to restore optimal breathing. This includes nasal breathing techniques, breathing re-education protocols, and simulation of high-altitude training exercises. You will also receive business development strategies to meet the growing worldwide demand for breathing instructors.

What sets this course apart

Backed by Science: Understand the proven connection between optimized breathing patterns and wellbeing.

Expert-Led Training: Learn directly from pioneer Patrick McKeown, who has dedicated over 10,000 hours to breathing research.

Global Community: Join a network of elite instructors applying breathing techniques internationally.
